The ENERGATE project invites you to the National Workshop in Greece, with the title "*Energy Efficiency Renovation in Greek Buildings: European Guidelines, Financial Instruments, and Innovative Digital Tools*". The scope of the National ENERGATE workshop in Greece is to inform the public about the capabilities of ENERGATE and present the key aspects of the project and the functionalities of the ENERGATE Energy Efficiency Marketplace.

Additionally, available financing tools for energy efficiency projects at both European and national levels will be discussed, as well as the added value that

ENERGATE can bring to the current market landscape. Finally, it will facilitate collaboration by creating networking opportunities between building owners, ESCOs, municipal representatives, and financial institutions, helping to bridge gaps in knowledge and resources for comprehensive energy transitions.

The event will be conducted in Greek!
